# THE EDUCATION PROGRAMME AT THE CRACOW UNIERSITY OF TECHNOLOGY DOCTORAL SCHOOL effective since the academic year 2022/2023

## I General provisions

- 1. The educational programme of the Cracow University of Technology Doctoral School, hereinafter referred to as the Doctoral School or the CUT DS, has been developed pursuant to the act *Law on the Higher Education and Science* of the 20<sup>th</sup> July 2018 (J. of L. of 2022, item 574, as amended), *the Act* of the 22<sup>nd</sup> December 2015 *on the Integrated Qualifications Systems* (J. of L. of 2020, item 226) and *the Regulation of the Minister of Science and Higher Education* of the 14<sup>th</sup> November 2018 *on the second degree characteristics of learning outcomes for levels* 6 8 *qualifications according to the Polish Qualifications Framework* (J. of L. of 2018, item 2218).
- 2. The Doctoral School provides education in the disciplines in which Cracow University of Technology is entitled to confer academic degrees. Disciplines in which education is provided have been specified in the Regulation of the CUT Rector on establishing the CUT DS.
- 3. A doctoral student receives education at the Doctoral School in one discipline or in an interdisciplinary mode.
- 4. The education programme, upon the motion of the CUT Doctoral School Council and having obtained the opinion of the University Council of the Doctoral Students' Association, is approved by the Senate. The list of modular courses is approved by the President of the Scientific Council of the relevant discipline.
- 5. The education cycle at the Doctoral School lasts 8 semesters. In reasonably justified cases, subject to the CUT DS Head's consent, the education cycle may last 6 semesters.
- 6. Tuition at the Doctoral School may be offered in Polish or English.
- 7. The number of the ECTS points assigned to the education programme at the Doctoral School is at least 40 ECTS.
- 8. Classes stipulated in the education programme at the Doctoral School are mandatory.
- 9. Detailed rules for achieving learning outcomes and the forms of their evaluation have been specified in the syllabuses of individual courses.
- 10. Completion of the Doctoral School education programme leads to achieving the learning outcomes reflecting their general characteristics for the level 8 qualification of the Polish Qualifications Framework specified in the effective regulation of the Minister of Science and Higher Education of the 14<sup>th</sup> November 2018 on the second degree characteristics of learning outcomes for levels 6 8 qualifications according to the Polish Qualifications Framework (J. of L. of 2018, item 2218).
- 11. The doctoral student's education cycle at the Doctoral School ends with the submission of their doctoral dissertation.

II
Time Schedule of the Education Programme (8 semesters)

	Courses			R		
Semester		ECTS	Symbol of the learning outcomes at the CUT DS	universal first degree characteristics of the PQF*	the second degree characteristics of learning outcomes **	Number of hours
	Pedagogy and Psychology (15h)	1	E_W05, E_U10, E_U11	P8U_W, P8U_U	P8S_WK, P8S_UU	
	English (15h)	1	E_U04, E_U08	P8U_U	P8S_UK, P8S_UK	75h
1	Selected aspects of conducting scientific research (45h):  a) Obtaining grants b) Scientific research methodology c) Scientific information d) Intellectual property protection – patent bases e) Ethics in scientific research	3	E_W03, E_W04, E_W05, E_W06, E_W07, E_U01, E_U03, E_U09, E_K04, E_K05, E_K06, E_K07	P8U_W, P8U_U, P8U_K	P8S_WG, P8S_WK, P8S_UW, P8S_UO, P8S_KO, P8S_KR

,	a reputation of the average and a misser and on		E_U05,	P8U_U,	P8S_UK,	15h
			E_K07	P8U_K	P8S_KR	

8	Preparation for the doctoral dissertation defence	1	E_U05, E_U06, E_U07, E_K07	P8U_U, P8U_K	P8S_UK, P8S_KR	10h
1-6	Professional internship <sup>2</sup>	10	E_U10, E_U11	P8U_U	P8S_UU	150h

<sup>\*</sup> The description of the assumed learning outcomes encompasses all the universal first degree characteristics specified in the act of the 22<sup>nd</sup> December 2015 on the Integrated Qualifications System (J. of L. of 2016, item 64, as amended) relevant for a given level of the Polish Qualifications Framework (PQF).

#### **NOTES:**

- 1. Modular courses are elective courses within the framework of specific disciplines in which education is provided. In the case of interdisciplinary education, the doctoral student selects modular courses in the disciplines in which they develop their doctoral thesis.
- 2. The scope of the professional internship in the form of teaching classes or participation in teaching classes:

I year – 30 h

II year – 60 h

III year – 60 h

<sup>\*\*</sup> All second degree characteristics of learning outcomes specified in the regulation of the Minister of Science and Higher Education of the 14<sup>th</sup> November 2018 on the second degree characteristics of learning outcomes for levels 6 – 8 qualifications according to the Polish Qualifications Framework (J. of L. of 2018, item 2218).

thinking and acting in the entrepreneurial manner	P8U_K	P8S_KO
maintaining and developing the ethos of research and creative communities, including:	P8U_K	P8S_KR
	to participate in a scientific discourse  to have the proficiency in a foreign language at the level B2 according to the Common European Framework of Reference for Languages, enabling participation in an international scientific and professional environment  to plan and execute individual and team research projects, also in an international environment  to independently plan and act for the benefit of their own development and to organise other persons' development  to plan classes or class sets and deliver them with the use of modern instruments and methods  SOCIAL COMPETENCES: THE GRADUATE IS PREPARED FOR  critical evaluation of the achievements within a given scientific discipline  critical evaluation of their own contribution to the development of a given scientific discipline  recognition of the significance of knowledge in solving cognitive and practical problems  meeting the social obligations of researchers and creators  initiating actions for the benefit of the public interest  thinking and acting in the entrepreneurial manner	to participate in a scientific discourse  to have the proficiency in a foreign language at the level B2 according to the Common European Framework of Reference for Languages, enabling participation in an international scientific and professional environment  to plan and execute individual and team research projects, also in an international environment  to independently plan and act for the benefit of their own development and to organise other persons' development  to plan classes or class sets and deliver them with the use of modern instruments and methods  P8U_U  SOCIAL COMPETENCES: THE GRADUATE IS PREPARED FOR  critical evaluation of the achievements within a given scientific discipline  P8U_K  critical evaluation of their own contribution to the development of a given scientific discipline  P8U_K  meeting the social obligations of researchers and creators  P8U_K  thinking and acting in the entrepreneurial manner

performing their scientific activities in an independent way,
 respecting the principle of public ownership of scientific activity results, without prejudice to the principles of intellectual property protection.

#### **Explanation of the used symbols:**

1. Universal PQF levels characteristics (of the first degree):

 $\mathbf{P} = \text{POF level (8)}$ 

U = universal characteristic

W = Knowledge

U = Skills

K = Social competences

#### Example:

**P8U\_W** = PQF level 8, universal characteristics, knowledge

"The graduate knows and understands the global scientific achievements and the practical implications resulting thereof"

2. Characteristics of PQF levels typical of qualifications attained in higher education (of the second degree):

 $\mathbf{P} = PQF \text{ level } (8)$ 

S = characteristics typical of qualifications attained in higher education

#### W = Knowledge

G = Range and depth – completeness of the cognitive perspective and interdependencies

K = context and conditions, consequences

U = Skills

W = Knowledge utilization - problem solved and tasks performed

K = Communication – receiving and creating statements, dissemination of knowledge in the scientific community and proficiency in a foreign language

**O** = Work organization – planning and team work

 $\mathbf{U} = Learning - planning$  one's own development and other persons' development

#### **K** = Social competences

 $\mathbf{K} = \text{Evaluation} - \text{a critical approach}$ 

**O** = Responsibility – meeting one's social obligations and acting for the benefit of the general public interest

 $\mathbf{R}$  = Professional role – independence and ethos development

#### Example:

**P8S\_WG** = PQF level 8, characteristics typical of qualifications attained in higher education, knowledge – depth and range.

"The graduate knows and understands the global scientific achievements encompassing the theoretical foundations as well as general problems and selected detailed problems – specific to the given scientific discipline"
